Amendment II

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

"I Have Not Yet Begun to Fight," 1779

John Paul Jones in Battle

"I have not yet begun to fight!" This was the immortal retort of Captain John Paul Jones to a request to surrender as he and his crew engaged in a desperate battle with a British frigate off the northern coast of England during the American Revolution.

Born in Scotland in 1747, Jones went to sea at age thirteen and became Captain of his own ship by the time he was twenty-one. By 1775, he had emigrated to America where he volunteered for service in the fledgling American Navy and was given his own command. In 1777 he was dispatched to the European waters with orders to create whatever havoc he could accomplish including attacking British ships and sea ports.

In 1779 Jones took command of the 42-gun *Bonhomme Richard* a reconstituted merchant ship given as a gift to the Americans by the French. Leading a squadron of five ships, Jones attacked the coast of Ireland and then sailed north around the tip of Scotland to a point off the coast of Northern England where on September 23, 1779 he encountered a large merchant convoy escorted by two British naval vessels. The stage was set for John Paul Jones's most famous naval battle.

All the world's a stage

William Shakespeare posited this idea in *As You Like It*, spoken by Jaques.

We are in fact in a world that is a stage with a play written by self-appointed elite. The play's script that we are currently living in started in earnest as far back as 1887 with collaboration between Cecil Rhodes and Nathaniel Rothschild and there have been many refinements to the script/plot in recent years. Organizations like Royal Institute of International Affairs (also known as Chatham House) in London; Council on Foreign Relations (CFR); Bilderberg Group; Club of Rome; the Trilateral Commission; and the World Economic Forum (WEF) were all created based on concepts that Cecil Rhodes developed. The members at the core of these organizations plan the direction of world economics, education, government, society and even religion. Then they implement their plans through propaganda, manipulation, coercion and intimidation.

For the most part their plans were executed in the shadows unseen by most citizens of the world. Their ultimate plan was to slow walk us into one world government run by an unelected technocracy. Well, along came Donald Trump. He upset their apple cart. He became like John McClane at Nakatomi Plaza in "Die Hard" the movie to the elite

See *World's a Stage* pg. 2

World's a Stage *from page 1*

establishment. He opened large numbers of citizen's eyes in this country and around the world. This fissure in the elite's plans created panic. So now they had to accelerate their plans and a second term of a Trump Presidency could not be allowed. This resulted in them taking some very extreme measures. These measures included elements that are not easily reversible. What they have set in motion is long term energy, food and commodities shortages and the ultimate collapse of the US Dollar.

We and most of the Western/First World countries have become consumers while the third world and other BRICK countries have become the producers. They now see that all they get from us is debt (our worthless money and bonds) in exchange for real goods. So they are setting up an exchange system where they will accept each country's currency as payment for goods instead of using the US Dollar as they have in the past making our dollar totally worthless. Couple this with the other shortages set in motion and we become a third world country overnight.

Even if by some miracle Donald Trump becomes President tomorrow this scenario cannot be reversed in short order. It will take many years to recoup food, energy, mining and manufacturing capabilities.

Now stack on top of this scenario the mid-term elections. The Democrat government now in power knows their corruption is very visible at this point in time and if their balance of power is over thrown that there will be hell to pay. So, they are in the posture of a wounded animal backed into a corner. In short they cannot lose seats in the House and

the Senate to Republicans. Their options are to massively cheat on the election results in a way so obvious that everyone will see the cheat and revolt; or to create a False Flag event that will cause the election to be severely impacted or to not happen.

The Democrats have been trying to instigate a civil war between liberal and conservative factions for a long time. They being on the side of the liberal faction have done everything in their power to demonize conservatives and conservative institutions with the help of the FBI by branding them terrorists. Since January 6th their efforts to cause civil war and uprising have failed because the conservatives are now wise to their deceptions.

Unfortunately this now means that the desperate Democrats must take more drastic measures. So everyone needs to be alerted to false flags and forced incidents of all kinds. These could take a variety of forms from self-inflicted attacks on governmental institutions carried out by operatives disguised as MAGA supporters to dirty bombs detonated on civilian populations that are blamed on conservative groups. If any of these false flags happen a civil emergency could be declared and UN Peace Keepers brought in and the elections cancellation. Another item in their tool box of disasters is their effort to push Putin to attack NATO countries or US directly. This could trigger martial law and the elections cancellation. Whatever they come up with it will be huge so be prepared and make yourselves as autonomous as possible.

God Bless us all!

The Law, What Is Going On?

Right now there is nothing going on at the State level here in Florida. The Federal level is a different story.

Right now in Congress there are two bills that are of interest to gun-owner, one good and one bad.

The Good -- H.R. [6945](#) (IH) - No Retaining Every Gun In a System That Restricts Your Rights Act

Full Title

To amend title 18, United States Code, to discontinue the collection by the Federal Government of firearm transaction records of discontinued firearms businesses, to require the destruction of such already collected records, and for other purposes.

The full title pretty much lays out what the bill is about. It is an attempt to keep the ATF from compiling what amounts to a gun registry.

Here is a [LINK](#) to Bill details.

The Bad – H. R. 1808/S. 736 -Assault Weapons Ban of 2021

The House has already passed their version of the Bill. It now awaits the Senate. Joe Biden and the Democrats desperately want to get this Bill passed so don't be surprised if there is a major mass shooting incident in our near future.

Summary of [S. 736](#)

This bill makes it a crime to knowingly import, sell, manufacture, transfer, or possess a semiautomatic assault weapon (SAW) or large capacity ammunition feeding device (LCAFD).

The prohibition does not apply to a firearm that is (1) manually operated by bolt, pump, lever, or slide action; (2) permanently inoperable; (3) an antique; or (4) a rifle or shotgun specifically identified by make and model.

The bill also exempts from the prohibition the following, with respect to a SAW or LCAFD:

- importation, sale, manufacture, transfer, or possession related to certain law enforcement efforts, or authorized tests or experiments;
- importation, sale, transfer, or possession related to securing nuclear materials; and
- possession by a retired law enforcement officer.

The bill permits continued possession, sale, or transfer of a grandfathered SAW, which must be securely stored. A licensed gun dealer must conduct a background check prior to the sale or transfer of a grandfathered SAW between private parties.

The bill permits continued possession of, but prohibits sale or transfer of, a grandfathered LCAFD.

Newly manufactured LCAFDs must display serial number identification. Newly manufactured SAWs and LCAFDs must display the date of manufacture.

The bill also allows a state or local government to use Edward Byrne Memorial Justice Assistance Grant Program funds to compensate individuals who surrender a SAW or LCAFD under a buy-back program.

The Law from page 3

ATF

Under the Biden administration and the new ATF Head Steve Dettelbach, the agency has been weaponized.

The ATF is establishing new rules and procedures.

The so called "Ghost Gun" rules just went into effect on August 24th. The rule:

Today, the Department of Justice Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) "Frame or Receiver" Final Rule goes into effect. The new rule modernizes the definition of a firearm and makes clear that parts kits that are readily convertible to functional weapons, or functional "frames" or "receivers" of weapons, are subject to the same regulations as traditional firearms. This rule will help curb the proliferation of "ghost guns," which are often assembled from kits, do not contain serial numbers, and are sold without background checks, making them difficult to trace and easy to acquire by criminals. The ATF is now going door to door confiscating Solvent Traps and FRT triggers without a warrant. Read what Katz and Phillips, P.A. the law firm behind U.S. LawShield in the State of Florida has to say [HERE](#).

If you are not already a member of U.S. LawShield I strongly suggest that you join as soon as possible by going to the [SACFLA](#) website and signing up for about \$12 dollars a month [Link](#). On our home page scroll down a bit and you will see the U.S. LawShield signup link.

The ATF has also been showing up at the homes of individuals that have purchased 2 or more guns at a time demanding that they see them, again without a warrant. In this case they have no authority. You don't need to comply unless they have a warrant. Simply tell them they need a warrant to make that request.

OKLAHOMA GOVERNOR SIGNS BAN ON 'RED FLAG' GUN SEIZURE LAWS

05/21/2020 04:51 AM | by Chris Eger

Gun rights groups say the new law is a boost to Second Amendment protections. (Photo: Chris Eger/Guns.com)

Republican Gov. Kevin Stitt on Tuesday signed a bill that would bar cities and counties in Oklahoma from enacting so-called "red flag" gun seizure schemes.

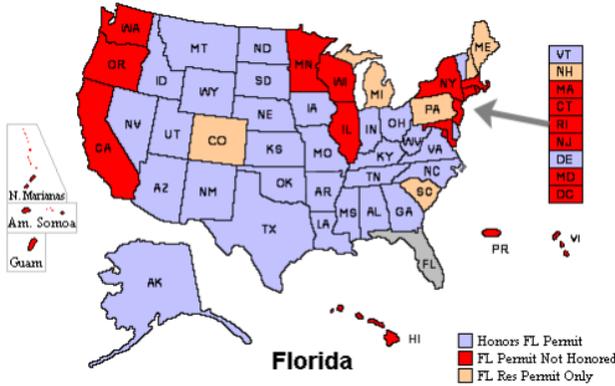

Stitt put his signature this week on Oklahoma Senate Bill 1081, the "Anti Red Flag Act," which preempts any type of extreme risk protection legislation in the state. The measure was popular with lawmakers, passing the state Senate 34-9 and the state House 77-14.

The measure had the support of state and national pro-gun organizations to include the Oklahoma 2nd Amendment Association and Gun Owners of America. Such groups argue red flag bills have little impact on crime and instead force individuals to surrender legal firearms to law enforcement based on often uncorroborated statements, then putting those gun owners into an expensive uphill fight to get their rights restored.
