May/June 2022

Volume 4, Issue 3

Amendment II

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

Francis Marion

Francis Marion was born in 1732 (exact date unknown) near Georgetown in Berkeley County, South Carolina. After receiving a basic education in local schools, Marion went to sea at age 15 and later served with his brother in the French and Indian War. In the early 1760s, he served under William Moultrie in the fighting against the Cherokee.

With the outbreak of war in 1775, Francis Marion became increasingly prominent in the Patriot cause. He was elected to the South Carolina Provincial Congress, the governing body of the colony following the collapse of royal authority. He also fought in a number of the early battles in the South, again under Moultrie, including the clash at Fort Sullivan in February 1776.

In September 1778, Marion was commissioned as the commander of the South Carolina Second State Regiment and in the following year, he fought under Benjamin Lincoln at the second Battle of Savannah. A broken ankle kept Marion out of action during part of 1780 and allowed him to escape capture at the fall of Charleston in May.

Francis Marion responded to the British victory at Camden in August 1780 by leading a series of successful nighttime guerilla-style raids against the British supply and communication lines, and against small concentrations of British or Loyalist soldiers. Frustrated opponents, including Benastre Tarleton, failed to track down the elusive "Swamp Fox" as Marion had become known. In December 1780, he was promoted to brigadier general under Nathanael Greene.

General Brigadier Francis Marion was one of the fathers of modern guerilla warfare. Some Brits still feel pangs of resentment from Marion's guerilla styling. British author Neil Norman, writing in *The Evening Standard*, called Marion "a thoroughly unpleasant dude who was, basically, a terrorist."

A Georgetown native, Marion was famous for his uncanny ability to elude and outsmart British forces. He typically led groups of irregular troops who were troops who fought without pay, supplied their own arms and horses, and in many cases, even their own food. Many of their supplies were captured from British or Loyalist armies.

Good Bye USA

A long time good friend of mine and patriot activist Barbra Susco was asked to say the invocation a few meetings ago. In the middle of her prayer she began to tear up and eventually broke up. Her love for our country is deep and while she prayed it struck her that our country was gone. At that moment I felt the same loss she did.

If you had told me as recently as a year ago that we would be in the condition and have the future that we now face I would not have believed you.

Yes, this country is doomed. To say this country is doomed is a difficult notion to accept.

Let's look at the facts.

China – has declared that it has conquered our country via COVID and infiltration of our government on all levels. That is not enough for them; they covet our land and resources. So, their next move may be invasion. This is a possibility we must always consider. This of course would collapse all our systems of governance and bring on martial law.

Globalists – are actively trying to tear down this country and the world and are using every means possible. What are these means? The major areas are food production and processing, energy exploration and production, economic and financial.

See The USA pg. 2

There is another and that is the extermination of as many people as possible but I am going to let that issue dangle. It is up to you to investigate that one on your own.

Let's break this down by starting with food production and processing. In the past few months as many as 50 food processing and distribution facilities have had fires. Can this be a coincidence? The entire western half of this country is in drought impacting farmer's ability to grow crops. Could this have anything to do with weather modification programs funded by Bill Gates and other Globalists? There is a worldwide shortage of fertilizer because of the Ukraine/ Russia conflict and global fertilizer plant shutdowns. All of this is being done by design to reduce crop production. If this weren't enough there have been mysterious deaths recently of 10,000 feed yard cattle in Kansas and there has been on going mass killing of chickens and turkeys because of supposed "Bird Flu" contamination.

Next let's look at energy exploration and production. First off, Biden and his administration have been promoting the planned extinction of fossil fuels. This means that it is more difficult and costly for oil and gas companies to get financing. Biden's Department of Interior's Bureau of Land Management is holding up several 1000 drilling permits awaiting approval. Democrats are busy submitting bills to tax "Big Oil" profits to crack down on corporate price gouging. This is coupled with unexplained disasters like the recent incident of an over-pressurized pipe that caused a massive explosion at one of the largest Liquefied Natural Gas (LNG) hubs in America. Oil prices and food prices of course

are linked and will lead to both shortages and high food prices.

Now the economy and finances are at the breaking point. Inflation is a given and that is not hard to see when you go to the grocery store. Our government is continuing to print money at an incredible rate while our economy is collapsing. Inflation now is at about 8% year over year and rising at an accelerated rate. It will only be a short while before we hit double digit inflation. At that point all faith in our dollar will erode.

When you sum up these conditions, while even excluding things like war with Russia or a disruption of the goods coming from China, we have a very dire & untenable future. I cannot see a civil way out of this mess. I see only chaos and the total collapse of our government. So we must all govern ourselves accordingly.

David A. Wood
Treasurer, Second Amendment Coalition of Florida

Politics And The Law What Is Going On?

Well I am sure you know that two firearms related events happened recently on the national level, one of which was good and one bad.

First the good being the Supreme Court ruling on New York State Rifle & Pistol Assn., Inc. v. Bruen -- New York’s proper-cause requirement for obtaining an unrestricted license to carry a concealed firearm violates the Fourteenth Amendment in that it prevents law-abiding citizens with ordinary self-defense needs from exercising their Second Amendment right to keep and bear arms.

The Supreme Court expanded Americans’ right to bear arms. In a 6-3 opinion the court ruled that a New York law that heavily restricts the ability to carry a concealed handgun in public violates the Constitution.

[Link to the opinion](#)

Second the bad being the Congress passing the unconstitutional “Safer Communities Act.” This [S. 2938](#) bill allows states to use federal taxpayer dollars to implement state-level gun confiscation orders known as Extreme Risk Protection Orders or “red flag” laws. These orders provide for an individual to be tried *Ex Parte* and have their lawfully-owned firearms seized before the accused has so much as an opportunity to contest the accusations against them. This bill was passed with the help of Republicans in both houses of Congress.

[Link to Bill and all actions](#)

[Link to Text](#)

[Axios take on the Bill](#)

Here are the traitors:

Here are the 14 House Republicans who voted for the bill:

- Fred Upton of Michigan
- Peter Meijer of Michigan
- Steve Chabot of Ohio
- Anthony Gonzalez of Ohio
- Mike Turner of Ohio
- David Joyce of Ohio
- Liz Cheney of Wyoming
- Chris Jacobs of New York
- John Katko of New York
- Brian Fitzpatrick of Pennsylvania
- Adam Kinzinger of Illinois
- Tony Gonzales of Texas
- Maria Elvira Salazar of Florida
- Tom Rice of South Carolina

Here are the 14 Senate Republicans who voted to move the bill forward.

- Sens. Roy Blunt (Mo.),
- Richard Burr (N.C.)
- Shelley Moore Capito (W.Va.)
- Bill Cassidy (La.)
- Susan M. Collins (Maine)
- John Cornyn (R-Texas.)
- Joni Ernst (Iowa)
- Lindsey Graham (S.C.)
- Lisa Murkowski (Alaska)
- Rob Portman (Ohio)
- Mitt Romney (Utah)
- Mitch McConnell (R-Ky.)
- Thom Tillis (R-N.C.)
- Todd Young (Ind.)

It is curious that our Senator Marco Rubio did not vote to move the bill forward as he was the original sponsor of the bill.

Treasurer, Second Amendment Coalition of Florida

Gun Safety Rules

1. Always assume the gun is loaded
2. Always keep the gun pointed in a safe direction
3. Never point a gun at anything you do not intend to destroy
4. Always keep your finger off the trigger until ready to shoot
5. Know your target and what is beyond it

At Our Meeting Held May 19th

The invocation was given by Barbara Susco who also asked for a moment of silence in remembrance for our now former member who recently passed away, Laurel Bennett. There were no candidates present at this meeting as I am sure they were all very busy campaigning as primary day is not far off. We did however have several members speak for some of the candidates. Ruth Field Beck spoke for Florida State Senate District 31 candidate Eric Ankner and PBC School District 3 candidate Connor Frontera. Andrew Carey spoke for Department of Agriculture candidate Jim Shaw.

The Treasurer’s report given by David Wood reported the success of our participation in the three day Florida Outdoor Expo. We netted 45 NRA memberships and got many interested in attending a SACFLA meeting. The Training Report given by Dean Walter told about a great training opportunity with SSC Tactical where you could spend 4 hours at their range for \$15 which would include receiving 50 rounds of 9 mm ammo on either May 16 or 17. Dean went on to update us on new AR pistol regulations that will be taking effect shortly. Dean also spoke about 2000 Mules and encouraged everyone to see the film or buy a copy to support and reward the producers.

As we had important private business to take care of so we asked all none members to leave so we could properly attend to it. Our business was completed satisfactorily and the meeting was adjourned.

At Our Meeting Held June 16th

Suzanne Falcone called the meeting to order early to accommodate candidate for US Congress District 22, who had to leave early. After the invocation given by Ruth Field Beck and the Pledge we had the rest of candidate time. Jen Showalter candidate for PBC School Board District 6 talked about her positions and why she was running. Ruth Field Beck and Barbara Susco

spoke for Connor Frontera candidate for School Board District 3.

David Wood, Treasurer, reported on the May Gun Show where we got 4 NRA memberships and \$127 in donations. He also took a few minutes to talk about some of the challenges that were before us and encouraged everyone to register to vote by mail in case the Democrats come up with a plan that would eliminate in person voting. Dean Walter announced SSC Tactical BBQ and shoot for Father’s Day weekend and a three day tactical event for the following weekend.

Suzanne Falcone talked about contact she had made with two patriot groups that we are adopting working relations with and how she had attended a Jexit event featuring Patrick Byrne and Joe Flynn (brother of Gen. Michael Flynn) as speakers.

Our program was two pronged. John Caola gave us an in-depth look at the status of the Ghost Gun regulation and Dean Walter reviewed the AR-15 Pistol regulations and gave us a history lesson in gun registration and recent discoveries of illegal data bases being kept by the ATF.

Constitutional Carry

CONSTITUTIONAL CARRY:

No tests. No taxes. No paperwork. No fingerprints in the criminal database. No photographs. No expiration dates. No plastic-coated permission slip. Just rights. For all law-abiding adults. Train because it's right, not state mandated.

GOP Rep Reveals a Frightening Possibility as Biden's IRS Makes Unprecedented Purchases of Bulk Ammunition

By [Michael Austin](#) June 19, 2022 at 3:30pm

Biden's IRS is buying up ammunition in bulk. On Saturday, Florida Representative Matt Gaetz told Breitbart that the government entity had spent \$700,000 purchasing ammo "between March and June 1."

This poses the obvious question — why?

Agents in the IRS Criminal Investigation department (CI) are armed with weapons and therefore need ammo. That being the case, they don't need \$700,000 worth of it.

In addition, [a search of usaspending.gov](#) showed numerous ammunition purchases made by the IRS over the past few years, ranging from purchases as low as \$3,201 to those as high as \$92,263.

The IRS has been doing this for some time, according to a 2019 report from [Forbes](#).

BREAKING: Biden Administration Moves to Cut Off Lake City .223/5.56 Ammo From the Commercial Market

By [Dan Zimmerman](#) June 15, 2022

Lake City Ammunition Plant (courtesy US Army)

Apparently not content with its efforts so far to make gun ownership more difficult and expensive for America's 100 million firearm owners, a source tells TTAG that the Biden administration is taking steps to reduce the availability of .223/5.56 ammunition available to the average shooter.

A person with knowledge of the situation tells us that, more than just "considering" the move, Winchester, which operates the [US Army's Lake City ammunition plant](#), has been informed that it may no longer sell M855 and SS109 ammunition produced in excess of the military's needs on the civilian market.

Armed Citizen Stops Criminal Attack in Her Front Yard

U.S.A. --(AmmoLand.com)- We start with this news report from Brooker, Florida as reported by the Alachua County Sheriff's department.

You are watering the plants in your flower garden. It is after work on a weekday when a stranger runs up to you. He shouts at you to give him the keys to your car. He says he has a gun.

You pull the keys from your pocket and the robber grabs them. You hang on to your keys, but you also grab your firearm from its holster and press the trigger. Your attacker drops your keys and runs. You back away and call 911.

You give the police a description of your attacker. Police arrest him the next day. He is charged with attempted grand theft of a motor vehicle, robbery by sudden snatching with a firearm, false imprisonment and burglary with assault or battery. He is also wanted for outstanding warrants from two other counties. His bond is set at \$200,000.

You are not charged with a crime.

GOA is Fighting Back Against the ATF's Illegal Gun Owner Registry

After months of preparation, we are ready to go public with our explosive report on the ATF's nefarious gun registry. After pouring over hundreds of pages of secret documents that we were able to secure through the Freedom of Information Act (FOIA), we have found undeniable proof that the ATF's registry – which they claim is only used to trace firearms used in crimes – is indeed a centralized and searchable registry of gun owners in total violation of the law.

Because FOIA documents can be pretty tedious, we've compressed the important points into a report which [we are releasing to the public](#). Read it over and share with anyone who doubts the ATF has an illegal registry of gun owners.

Part of the reason we know you support us is because we do more than put out reports, we also help generate support for pro-gun legislation.

To keep up the pressure, we need you to support Senator Ted Cruz's Senate version of Congressman Michael Cloud's No REGISTRY Rights Act, which will eliminate the ATF's gun

Take Action *from page 6*

registry. Make sure you click the “Take Action” button and send a message to both your Senators either thanking them for supporting the bill or demanding they support it if they don’t already.

Because this issue is so important for every American to understand, we are breaking down the report with a five-part video series on our YouTube channel. [The first episode is live now.](#) Go watch it and subscribe to our channel so you can catch the next four episodes.

TAKE ACTION

States and counties that have passed Second Amendment sanctuary (or other pro-Second Amendment) laws or resolutions as of July, 2021. Localities within counties that have adopted such resolutions are not displayed in this map.

- County level
- State level
- Both state and county levels

Florida has 42 counties, three cities and one town that have adopted Second Amendment Sanctuary (or other pro-Second Amendment) resolutions by the most recent information I could find. Currently Palm Beach County is not among the adopters of any 2 A Sanctuary resolutions and the prospects are that they never will adopt any.

Florida Leads the Nation in Conceal Carry Permits

Here is the most recent report from the department of agriculture.

Florida Department of Agriculture and Consumer Services Division of Licensing Number of Licensees by Type As of May 31, 2022		
Type	License Title	Total
C	Private Investigators	6,964
CC	Private Investigator Interns	1,348
A	Private Investigative Agencies	2,657
AA	Private Investigative Agency Branch Offices	21
